period:	09/2007 - 09/2008
GFA:	584 m ²
NFA:	542 m ²

One-field gym, 'Hauptschule Rheinbach'

our work

The new building connects to the existing two-field gym, in order to use the existing changing rooms and showers.

The new hall building is flanked by an adjoining wing that houses the equipment and medical rooms as well as the foyer. From here you can get to the changing area of ??the existing building.

The construction, made of reinforced concrete columns, has a plaster facade. A natural ventilation is achieved via motorized windows.
