floorplan groundfloor

foyer 'Wielandstraße'

our work

The project includes the partially simultaneous implementation:

- ? the nationwide fire safety retrofitting
- ? the redesign of the foyer (Deutsche Post IT Services GmbH)
- ? of the new building 'Foyer KfW'
- ? the reconstruction and modernisation of component 5
- ? the reconstruction and modernisation of component 6
- ? of the installation of a casino

The construction work was carried out continuously during operation.

Most of the work was done outside the working hours - after 4 p.m. and at the weekends.
